

# PRESS ADVISORY

## FOR IMMEDIATE RELEASE

### Void Tactical Media presents Form and Structure 001 Additiv: It's Expensive and It Can Kill You

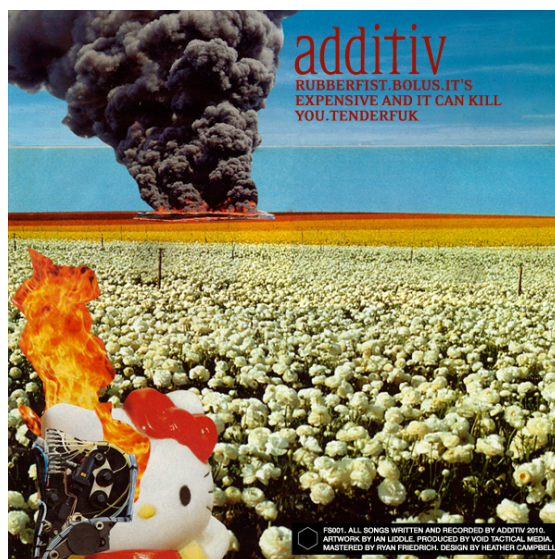

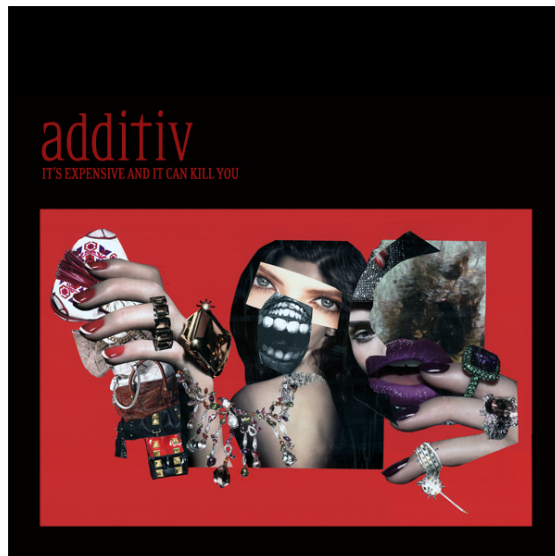

Our first release features ally and long time friend Additiv, and we couldn't be more pleased to welcome him into the fold. Since early days hanging with us near and in Detroit, he's traveled through San Francisco and now resides in Berlin where he's been testing his newest sounds. Weaving together pounding bass and layered noise, we can hear the sound of those foundational influences both more abstracted and more refined. Bolus is a full spectrum assault, Rubber Fist rocks out, Tenderfuk tells the story, and It's Expensive and It Can Kill You contextualizes the whole assault. Form and Structure is on the launch, expect new releases by the month!

#### FORM AND STRUCTURE

Form and Structure is a new digital label from Void Tactical Media, the Detroit based label for hard broken bass and distorted electro. Leveraging digital formats to get our sounds to dancefloors and hungry ears faster, Form and Structure supplements the auditory, print, and graphical activities of Void Tactical.
